QUELLINUS II ERASMUS

Three Putti around a Fruit Basket with Parrots

The still life and the parrot are partly inspired by a work executed in collaboration with Peter Paul Rubens and Frans Snijders in the Museo del Prado, Madrid. The present painting is comparable to a signed Caritas by Erasmus Quellinus in the Groeningemuseum, Bruges. It can be dated to circa 1655/60.

We are grateful to Bert Schepers of the Rubenianum, Antwerp for suggesting the attribution to Erasmus Quellinus II and the Workshop of Frans Snijders.
